

Osmond
Ergonomics

Product Portfolio

We have been at the forefront of UK workplace ergonomics for over 20 years. In that time, we have developed a product portfolio which includes some of the finest chairs, furniture and desktop accessories from around the world.

Significantly, our customers come to us (and stay with us) for our knowledge, not just our products!

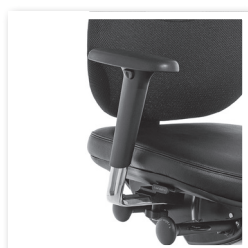

Whether your requirement is corporate, departmental or individual, we always apply the same philosophy: **we focus on the outcome rather than the sale**. As a result, ergonomists, assessors, facilities and HR managers, occupational health and safety professionals throughout the United Kingdom trust us to provide the best combination of products, services and training for every situation.

Overleaf you will find many of the manufacturing partners with whom we work.

Our very comprehensive portfolio includes:

- Chairs (office, industrial, medical & laboratory)
- Desks (fixed, height-adjustable and sit-stand)
- Office furniture and storage
- Screens and acoustic products
- Soft seating, touchdown and breakout furniture
- Educational furniture
- Monitor arms and stands
- Keyboards, mice and other input devices
- Laptop stands
- Tablet stands
- Footrests
- Document holders
- Lighting
- CPU holders
- Arm & wrist supports
- Posture aids

We also offer many webinars, seminars and workshops to complement our product portfolio. Please see our Training Services brochure for further information.
