

# Lunch & Learn

You are invited to join us for an interactive session about  
**Mobile Generations – The HR Tsunami**

Burges Salmon, One Glass Wharf, Bristol BS2 0ZX

from **13:00 to 15:00** on **Wednesday 16th September, 2015**

**By 2020, more than half the workforce is expected to be Generation Y. These individuals have grown up connected, collaborative and mobile. Simultaneously, new technologies are transforming where, when and how we work.**

These two separate forces are inextricably intertwined and create management, accommodation and lifestyle challenges which employers are only just starting to comprehend.

Ergonomist Jim Taylor will deliver an overview of the research and insights which have led to the publication of 'Mobile Generations', an in-depth report and analysis of the situation.

Guy Osmond will then provide a brief overview of products and resources available to address many of the issues raised.

Find out more and register at

## Jim Taylour

Senior Ergonomist, Orangebox

---

Jim originally trained as a furniture designer, gaining his MSc in Ergonomics and Workplace Design in the 1990s. His interest in human-centred design

originated from his work developing office seating for Giroflex.

Currently, Jim's principle activities revolve around research to support Orangebox product innovations alongside various client wellbeing initiatives. He also chairs a CIEHF special interest group on children's ergonomics and works with the British Standards Institute for European harmonisation of dimensional standards for office chairs and school furniture.

## Guy Osmond

Managing Director,  
Osmond Ergonomics

---

In a career spanning nearly 40 years, Guy has been involved in a variety of businesses, including satellite TV, a wine bar, card printing machines, a children's clothes shop and Space Invaders.

His company was originally created in 1962 and he has been active in workplace ergonomics since 1992. Over this period, he has been responsible for the UK introduction of many products and constantly explores new approaches to changing workplace habits. Osmond Ergonomics is now established as the UK's most knowledgeable supplier of innovative products and services to improve workplace wellbeing and productivity.
